Chocolate & Icing Depositing & Metering/Transfer Pumps

Depositing Pump

- Precise deposit adjustment wheel with a volume reference
- Flexible operator control panel that allows automatic, semi-automatic, or manual depositing.
- Heated product cylinder giving you flexibility in using flowable products like chocolate, icing, or caramel.
- Easy to disassemble and clean.
- Single or multiple nozzle depositing head.
- Stainless steel sanitary clamp fittings for easy on/off of tank.

Transfer Pump

- Up to 600LB per hour capacity
- Heated product cylinder with electric heat traced transfer pipe, OR water-jacketed transfer pipe
- Variable cycle timer to control amount of product transferred over time, OR optional optical level sensor to monitor target tank and control pump
- Easy to disassemble and clean.
- Stainless steel clamp fittings for easy removal
- Ganged pumps for higher volume applications

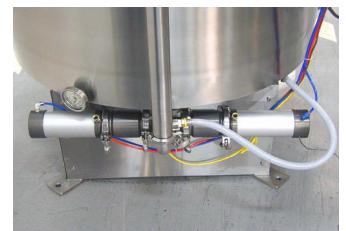

1 Nozzle Mould Depositor mounted to a 125 lb heated tank

Panning Sprayer with 200 lb heated tank

Automatic Transfer System with Level Sensor

Ganged Transfer Pumps for higher volume transfers or for greater 'push'
